

Field sheet stag beetle survey

Transect name: _____ Date of transect walk: ___/___/20__

Name of surveyor: _____ Sunset time: _____ h _____ min

Starting time: _____ h _____ min Wind speed: 0 / 1 / 2 / 3 / 4

Initial temperature: _____ °C Initial relative air humidity: _____ %
500m transect walked in 30 min starting 15 min before sunset preferably at >12°C and little or no rain and wind.

Codes

Wind speed (Beaufort scale):
0 = no wind
1 = grass is moving
2 = small branches of trees are moving
3 = large branches of trees are moving
4 = the trunks are moving

Sex:
M = male
F = female
U = unknown

Activity:
DR = dead/remains
CO = copulating
NF = non flying
FL = flying
U = unknown, changing during observation or not notated

Notes and observations of other species:
